## If you need medical care.

### How to get the most out of your benefits.

#### **Pick a network PCP.**

A PCP is a primary care provider, sometimes called a primary care physician or doctor. It can be a family practitioner, internist, pediatrician or general medicine physician. Although your plan may not require you to choose a PCP,\* it's a good idea to have one. Your PCP generally:

- Knows your history.
- Builds an in-depth knowledge of your health over time.
- Helps guide you on the best path of care.
- Can advise you when to see a specialist and provide electronic referrals.

#### **Find a network provider.**

Visit [myuhc.com](https://myuhc.com) > **Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, reputation, estimated cost of services, availability, hours of operation and more. You can even see patient ratings and compare quality and costs before you choose a provider. If you would like more information about a provider's qualifications, call the toll-free member phone number on your ID card.

#### **Make more informed choices.**

The **UnitedHealth Premium® Program** uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality and cost-efficient providers. Find UnitedHealth Premium Care Physicians by going to [myuhc.com](https://myuhc.com) > **Find Care & Costs. Look for blue hearts.** ❤️ ❤️

#### **Keep up on preventive care.**

Preventive care—such as routine wellness exams, certain recommended screenings and immunizations—is covered by most UnitedHealthcare plans at no additional cost when you see network providers. Learn more at [uhc.com/preventivecare](https://uhc.com/preventivecare).

\*Depending on your health plan, selection of a primary care physician may be required.

## If you need medical care.

### Know what to do if you need:

#### Referrals.

If your ID card states “Referrals Required,” you’ll need an electronic referral from your PCP before seeking services from another network provider. Please refer to your coverage details to learn which services require referrals.

#### Hospital care.

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or your PCP may be required to notify UnitedHealthcare before you’re admitted.

#### Prior authorization.

Your plan may also require prior authorization before you receive certain services. This means that you or your network provider may need to get approval from your plan before the services are covered. Call the toll-free member phone number on your ID card or sign in at [myuhc.com](https://myuhc.com) > **Coverage & Benefits** to check if prior authorization is needed.

Pay attention  
to policies...

to avoid paying  
more for care.

## If you need medical care.

## Get to know your care options and costs.

How much you pay for care can depend on where you go. You'll want to make your PCP your first stop whenever possible. For life-threatening conditions, call 911 or go to an emergency room.
