# LIFE INSURANCE

## Why you should consider Life Insurance

One of the most important things about life insurance is the financial peace of mind it gives you and your loved ones. UnitedHealthcare offers basic life insurance that allows you to provide for others if you pass away.

You also have the option to increase your coverage with supplemental life insurance and/or expand your coverage to include your spouse and/or dependents.

### Basic life insurance

With this policy, we make a payment to your beneficiaries if you die. The proceeds can be used to pay funeral costs, outstanding debt or future educational needs.

### Optional supplemental life insurance

You have the option to purchase supplemental life insurance if you want to increase your life insurance coverage.

### Optional dependent coverage

You have the option to expand your life insurance coverage to include dependent coverage for your spouse and/or dependent children.

### Also part of your Life Insurance Policy

**Accidental death and dismemberment insurance (AD&D):** AD&D, provides an additional benefit if you suffer death or dismemberment in an accident.<sup>1</sup>

**Seat belt benefit:** If you are in a fatal car accident in a private passenger vehicle while wearing a seat belt, your AD&D benefit may pay an extra 10%. However, the benefit is not payable to either a driver or passenger if the driver was legally intoxicated or under the influence of drugs at the time of the accident.

### How much life insurance do you need?

- To determine your need for life insurance, consider these questions:
- What would your family need financially if you couldn't be there?
- How much is needed to pay for funeral expenses and estate costs?
- What would it take to pay off debts such as a mortgage or car payment?
- What would be required to replace your income and sustain the household?

These services are also available.
